DINNERBELL

PRESS KIT

OVERVIEW

Dinnerbell is the AI assistant for busy families. Unlike other family organizers, Dinnerbell can actually do the work for you. Assign time-consuming tasks to Dinnerbell. Share and manage a unified family calendar. Generate personalized meal plans. Digitize your family recipes. Share lists and assign to do's. And gamify the family chores with your family's always-on, agentic AI assistant. Engage with Dinnerbell through the mobile app, on the go via text message or email, and by voice in the mobile app or on Dinnerbell Kiosk—your family's AI command center. Offload busy work and keep everyone on the same page with Dinnerbell so you can spend time on what matters most. Get started free today!

ABOUT

Time Together: It's what makes it all worthwhile. Time for sharing adventures and creating new experiences. But there's never enough of it. That's why we created Dinnerbell. We are working parents, technologists, stay-at-home dads, family chefs and bakers, marketing leaders, AI enthusiasts, application developers, and family members. We believe there's a better way to manage our busy lives, offload time-consuming tasks, and keep everyone on the same page so you can spend more time together on what matters most.

FEATURES & BENEFITS

Feature	Benefit
Assign Tasks	Dinnerbell is your agentic AI assistant. Save time by offloading common tasks to Dinnerbell. "Move coffee with Jackie to 10am on Tuesday." "Add 'clean the garage' to John's to do list." "Generate a meal plan for next week." "Add milk to the grocery list." "Schedule a babysitter for Friday night." Offload busy work and spend more time on what matters.
Family Calendar	Keep the whole family on the same page with a single, shared calendar across devices. Keep events, activities, and appointments in the same place so everyone's in the know. Link your family calendar to your personal calendar so there's no need to bounce between apps.
Family Places	Dinnerbell checks the calendars you don't have time to. Add the schools, youth sports, libraries, churches, music venues, and local places your family cares about—Dinnerbell then alerts you when something new appears. Follow your places. Never miss spirit day again.
Check-ins	The heads-up you didn't have to ask for. A morning look at what's ahead, a warning when plans overlap, a dinner nudge before the evening gets away from you. Dinnerbell remembers what you tell it, so its check-ins fit your family. Want fewer? Just say so.
AI Event Scanning	Snap a photo of the school lunch calendar. Send a text message with the swim meet schedule. Email your next trip itinerary. Dinnerbell reads and automatically imports events to the family calendar. No more tedious manual entry and now everyone's always up to date.
Meal Planning & Groceries	Whether you're cooking a meal from scratch, heating a frozen pizza, ordering a meal in, or having family dinner out, Dinnerbell makes meal planning and execution a snap. Generate AI-personalized meal plans and manage your grocery list across devices. Transfer your grocery list to delivery services with a single click.

AI Curated Recipes	Snap a photo of grandma's handwritten lasagna recipe. Text or email a screenshot or link to a recipe online. Or just ask to find a vegetarian recipe for Tuesday night. Dinnerbell will digitize and save recipes to your family favorites. Then add them to your meal plan or grocery list and get illustrated step-by-step preparation guidance and expert advice on cooking techniques and substitutions.
Shared Lists	Dinnerbell keeps everyone organized with shared lists. Whether it's a list of things to remember for your next family road trip, a to-do list with assigned owners, or the family grocery list so you never forget the milk. Shared lists ensure nothing falls through the cracks.
Family Chores	Keep the household running like a well-oiled machine with Family Chores. Create chore charts for any family member, set the work to be done, track progress, and even tally up rewards. Dinnerbell gamifies the family chores and keeps everyone motivated and on track.
Everywhere You Are	Whether you're at work accessing Dinnerbell through email or the mobile app, on the road sending a text message, or at home talking with Dinnerbell in the app or on Dinnerbell Kiosk, Dinnerbell meets you where you are. Schedule services and tasks, get your daily rundown, manage lists, coordinate family activities and more—anywhere you are.
